Subject: exhibition Elephants for Peace in London

Dear Mr. Johnson,

I am writing to you on behalf of the NGO Elephants for Peace, an association that I invited to Oświęcim in 2011. As you know, I have been working hard to give our town a new image other than the one left to us by the atrocities of World War Two.

The participatory exhibition *Elephants for Peace* and its symbolic march from Berlin to Oświęcim allowed the citizen of my town and country, as well as their children, to give visual expression to their desire of peace.

I can highly recommend your involvement with this association whose sole purpose is to give a visual image to Peace by simply asking people to create and donate an elephant an emerging symbol that combines peace with power. The donated work will then travel the world as each individual's peace ambassador.

I believe Rose Marie Gnausch and Natacha Cohen have already contacted you and Ms. Justine Simons and can only but highly recommend the Elephants for Peace exhibition and its message.

With peaceful regards,

Janusz Marszałek
